Dear Sir:

This document is a Supplemental Information Disclosure Statement to the above-cited patent application.

Attached is at least one form PTO/SB/08A/B listing documents believed relevant to the subject application. On March 17, 2004 an Information Disclosure Statement was submitted to the USPTO. In that submission, the enclosed article was submitted as *JERMAN and TERRY, Sensors and Actuators, p. 407-408, Chapter 7, Section 7.6*. We hereby submit at this time the entire Chapter 7 publication. The submission of the following information is not intended, nor should it be construed, to constitute an admission that any patent, article, or other information referred to herein is "prior art" unless specifically designated as such. In accordance with 37 C.F.R. § 1.97(b), the filing of this information shall not be construed to mean that a search has been made or that no other material information may exist. Neither should its submission be construed to indicate that a thorough search should not be conducted by the Examiner.

It is believe that this disclosure complies with the requirements of 37 C.F.R. § 1.97 and § 1.98 and MPEP § 609. If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be telephoned at (858) 450-0099 x303 so that any deficiencies can be remedied.

This Supplemental Information Disclosure Statement is being submitted before the mailing of an Office Action on the merits. Accordingly, no fee is due under 37 C.F.R. § 1.97(b)(3).

A copy of the document is enclosed. This documents are not necessarily analogous art.

It is respectfully requested that this document be: (1) fully considered by the Patent and Trademark Office during the prosecution of this application; and (2) represented on any patent which may issue on the application. Applicant respectfully requests that copies of the forms PTO/SB/08A/B, as considered and initialed by the Examiner, be returned with the next communication.
